# Who We Are

Welcome to DELICA, your trusted partner in high-quality laminate solutions. Established in 1999, we are a leading supplier of top-notch laminates that cater to a wide range of industries and applications. With a commitment to excellence and innovation, we have been providing premium laminates that enhance the aesthetics and functionality of various surfaces.

---

## OUR VISION

At DELICA, our vision is to be the preferred choice for laminates globally. We strive to set new standards in the industry by continuously pushing the boundaries of design, technology, and sustainability. Through our products, we aim to inspire creativity and transform spaces into captivating and functional environments.

---

## OUR MISSION

Driven by a passion for perfection, our mission is to deliver laminates of the highest quality that meet the diverse needs of our customers. We focus on research and development to create innovative solutions that align with the latest trends and market demands. Our aim is to forge lasting partnerships with our clients, based on trust, reliability, and exceptional customer service.

**90° Bendable, No Need of Edge Band**

**Fire Retardant**

**100% Waterproof**

# 90°

**BENDABLE**  
PVC DECORATIVE LAMINATES

## USES RECOMMENDATIONS

**RANGE :** A wide variety is available in terms of designs, colors and texture.

**ADHESIVE :** These laminates can be applied using bond on plywood surface and Heat X on PVC Board. However the better solution is the use pvc glue available easily in the market. However use of heat activated adhesive is not recommended.

**LAMINATION :** It is advisable to use proper substrates and observe standard bonding procedures to avoid any errors. Good quality plywood, high density particle board, or high quality fiber board should be used as substrates. Make sure that the face of the substrate is smooth and free of grease, wax, dust, chips and other foreign matter.

**DELICA:** Does not recommend use of any kind of coat like PU base, Delica lamination (wax) on our products as our products are made from natural resources, hence application of such products can damage the originality and natural beauty of the laminate sheet.

**CUTTING & MACHINING :** Make sure that you use standard tools and equipments to cut rout and drill the products. The blades used shall be sharp. Use smooth file to feather all corner edges and to remove any burrs that may occur in the cutting process.

**STORAGE & MAINTENANCE :** The laminates and the substrates shall be stored at the temperatures between 22°C and 32°C at relative humidity of 45-55%. Do not use any exposure to sunlight shall be avoided.

**WARRANTY :** Delica warrants that these products are free from manufacturing defects and are suitable to use under normal conditions. Inspect the product prior to installation. Company's liability shall be limited to the extent of the cost of the product only.

**NOTE :** Protective file shall be removed only after installation. PVC laminate meant only for indoor use; direct exposure to sunlight shall be avoided. It is advisable to use V\_Groove cutting by giving a groove of 0.4mm to 0.6mm for bending the sheet upto 90°. Comparison of bending and normal laminat
